THE EVOLUTION OF INVESTMENT AND IMPACT IN OAKLAND COUNTY'S GIS SYSTEM

EXPAND

Offer expanded access to cloudbased GIS tools and spatial data.

CASUAL USERS

All users enabled to create their own ad-hoc maps and GIS apps, and perform their own spatial analysis using web-based tools that improve decision making and communication.

LEVEL OF INVESTINENT **BUILD TARGETED BUSINESS APPLICATIONS**

Embed location-based solutions in everyday business process.

BUSINESS USERS

Business users trained on GIS tools perform specific location-based work and analysis.

CREATE THE FOUNDATION

Build the GIS platform, which requires the most amount of time and monetary investment.

The infrastructure, base map data such as roads and parcels, and software choices become the foundation upon which your users will build.

POWER USERS

GIS/IT professionals develop data, apps, scripts.
