The Act repeals and recodifies multiple acts related to tax increment finance authorities, subjects the TIFA to standard reporting requirements, and provide for the continuation of existing authorities created under the statutes being recodified. Additionally, the Act repeals two TIFA acts that were not being utilized.

Website Requirements Sec. 910 (1)

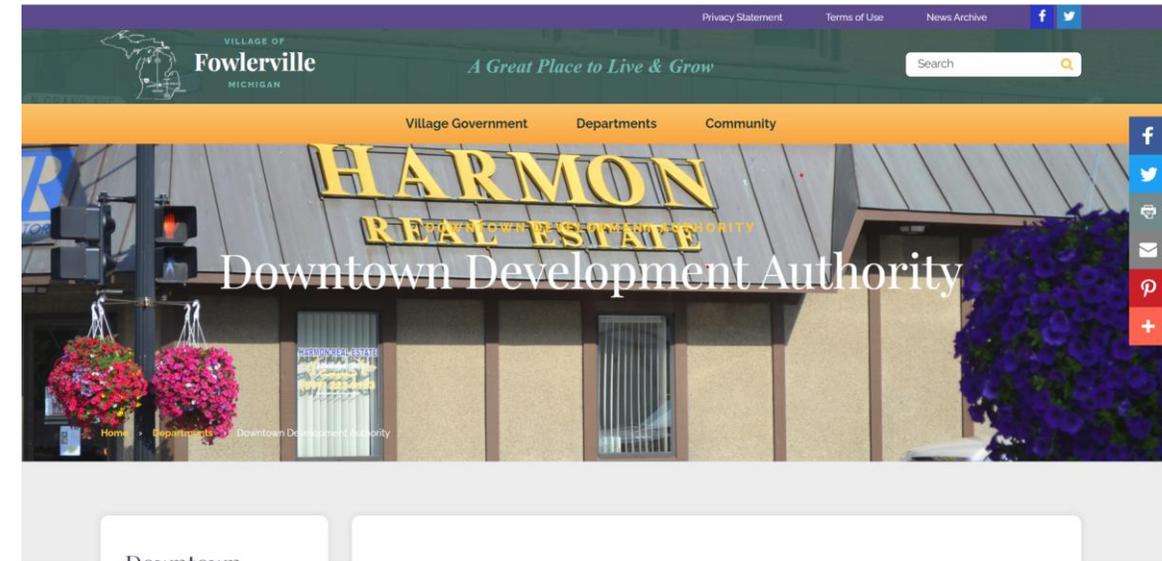

Subject to subsection (5), each municipality that has created an authority or that creates an authority shall create a website or utilize the existing website of the municipality that is operated and regularly maintained with access to authority records and documents for the fiscal year beginning on the effective date of this act...

Website Requirements Sec. 910 (1)

Lapeer DDA has its own website
<https://downtownlapeer.com>

Fowlerville DDA included within the municipality
website under Departments
http://fowlerville.org/departments/downtown_development_authority/index.php

Website Requirements Sec. 910 (1)

- **Minutes** of all board meetings
- **Annual budget**, including encumbered and unencumbered fund balances
- **Annual audits**
- Currently adopted **development plan**, if not included in a tax increment financing plan
- Currently adopted **tax increment finance plan**, if currently capturing tax increment revenues
- Current authority **staff contact** information
- A ***listing*** of **current contracts** with a description of those contracts and other documents related to management of the authority and services provided to the authority

The records and document information required above would be phased in from the effective date of the Act. For the fiscal year in which the Act takes effect, information would be required for that fiscal year. For the fiscal year 1 year following the effective date of the Act, the information would be required for that fiscal year and the immediately preceding fiscal year, and so on.

Website Requirements Sec. 910 (1)

According to Treasury, in an email dated September 9, 2019

- Contracts would be any active agreement the DDA has signed with another party.
- An example could be: Bob's Landscaping 123 Main St, Lansing MI - snow removal and landscaping.
- A lease agreement is a contract and should be mentioned on the website with a description of the contract.
- There is no mention that the contract must be posted, only a description of the contract.
- Other documents for example, could be agreements the DDA has with the county to only capture a certain percent of the property taxes.
- If a DDA has no current contracts, we advise the DDA mention that on the website so it does not look like the DDA forgot to put a listing of contracts on their website.

Website Requirements Sec. 910 (1)

- An updated **annual synopsis** of activities of the authority
- List of **authority accomplishments**, including progress made on development plan and tax increment finance plan goals and objectives for the immediately preceding fiscal year.
- List of authority **projects and investments**, including active and completed projects for the immediately preceding fiscal year
- List of authority **events and promotional** campaigns for the immediately preceding fiscal year

Website Requirements Sec. 910 (1)

- For any tax increment revenues described in the annual audit that are not expended within 5 years of their receipt, a description that provides:
 - The reasons for accumulating those funds & uses for which those funds will be expended
 - A time frame when the fund will be expended
- If any funds have not been expended within 10 years of their receipt:
 - The amount of those funds
 - A written explanation of why those funds have not been expended

SAMPLE

“At the end of the fiscal year 2017-18, the DDA had a fund balance of \$160,000. As the 2014 TIF plan indicates, the DDA anticipates assisting the City with future infrastructure projects that include: M-1 road improvements, viaduct improvements, and upgrades to utilities and infrastructure on First Street. The projects, costs and timelines are included in the City's Capital Improvement Plan which is available for viewing at the City office, 123 Main Street.”

SAMPLE

At the end of the fiscal year 2017-18, the DDA had a fund balance of \$160,000. As the 2014 TIF plan indicates, the DDA anticipates assisting the City with future infrastructure projects that include: M-1 road improvements, viaduct improvements, and upgrades to utilities and infrastructure on First Street.

The projects, costs and timelines are included in the City's Capital Improvement Plan which is available for viewing at the City office, 123 Main Street.

According to Treasury, the **first sentence**, “Meets the requirement of *The Reasons for accumulating those funds and the uses for which those funds will be expended.*”

However, the **second sentence**, “does not meet the requirement of *A time frame when then funds will be expended.*”

If you were to provide a general time frame such as ‘completed by 2022-2023’ or ‘within the next 3-4 years’, it would suffice to meet the time frame requirement.
