TO: Oakland County International Airport Users
FROM: Airport Administration
RE: RUNWAY BRAKING ACTION UPDATES

Oakland County International Airport recently acquired a Runway Friction Tester (RFT) / Decelerometer for use during the winter seasons. An RFT provides a scale of braking action reports for runways and taxiways.

Additional information regarding the RFT is available on the back of this memo, in FAA Advisory Circular 150/5200-30A - Chapter 5, and on the FAA website at www.faa.gov/airports_airtraffic/airports/regional_guidance/central/airport_safety/part139/best_practice/snow_ice/#reporting
