

Planned Commercial/Office and Industrial Areas Township of Springfield

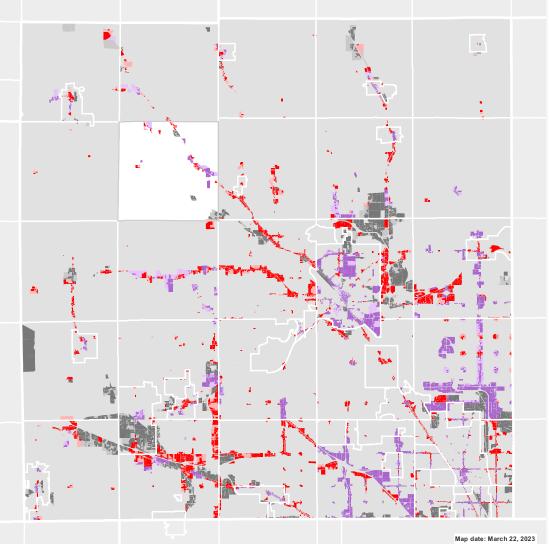

About

This map is intended to provide an overview of areas planned for commercial/office, industrial, and mixed use by Oakland County communities. It shows areas currently developed or in a committed land use with darker colors. Areas that are undeveloped or currently in a less intense use than what is planned for are shown with lighter colors and are labeled with an estimate of the number of buildable acres. Maps for each community are als o available.

Notes

- 1. The information on this map reflects a generalized future land use based on each community's master plan. Areas planned for mixed use are generally part of a focus area in the comm These areas often include some type of commercial/office use, howev master plan should be referenced for more information.
- There may be undeveloped parcels currently zoned for commercial/office not represented on this map because they are planned for a different use.
- For the purpose of this map, undeveloped parcels are those that are currently vacant or in an agricultural, extractive, or single family residential land use. These parcels are not necessarily available for purchase or development.
- The information on this map is parcel-based. Undeveloped portions of impro-not shown on this map. Parcels that have multiple planned uses are split and sh on this map.
- The buildable acres shown for each parcel is an estimate by subtracting areas covered by water or swamp/marsh from the total area. A field survey would be required to determine the actual buildable area of each parcel.

- unity's master plan ercial/office use, however the community's
- This map does not indicate current zoning or the intensity of land use permitted by the zoning ordinance. The current zoning may be different from the planned future land use. cial/office or industrial that are
