

Future Agents, Your Mission Starts Here!

A world of augmented reality Missions and Challenges awaits you within Agents of Discovery. Using your smart device and a sense of exploration, complete Missions throughout the Oakland County Parks.

1. Download the app from the Google Play Store or Apple Play Store
2. Once downloaded, "Sign Up" under New Agent and create your account. If you prefer, you can play our missions as a guest; however your progress won't be saved and you won't earn rewards.
3. Select the Missions button and search through all available Missions. Once selected an Agent will greet you and explain, including safety information. Upon completion, you'll earn "USBees" (in-game points) and be eligible for a reward which varies by mission completed.
4. Your profile will track the number of Missions you completed, USBees collected, your travel and time spent in the app. You can also review Mission Progress to see which missions you've completed and your "Badges" earned.

Accept Your Mission and Play Now!

Use the QR code to download the FREE AR game.
Search for "Fun on the Forest Trail" at the Red Oaks
Nature Center to play. **Available from Sept. 15-30, 2023.**
