## VISION COVERAGE THROUGH HERITAGE VISION PLANS

To help you see your best, Oakland County offers vision coverage through Heritage Vision Plans. Heritage Vision Plans coverage is available to you and your dependents up to the age 26. Services provided by a non-network provider will require you to pay for those services in full and submit a claim form to Heritage Vision Plans for reimbursement. Treatment of a medical condition affecting your eyes, such as glaucoma or pink eye, is processed through your medical coverage.
