#### **Project Goal**

To implement enhancements to FCMS for additional process efficiencies so that the OCME team can further streamline the processing of ME and Non-ME cases.

## **Business Objective**

To improve OCME staff productivity, through more efficient case file creation and approval processes, integration with the toxicology lab, and enhanced photo loading preview/reviewing.

#### **Major Deliverables**

- Detailed Project Plan
- Vendor SOW
- Application and/or System Requirements
- End User Hardware and Software Requirements Document
- Technical Design Document
- Technical Architecture Diagram
- Training Plan
- User Acceptance Test Plan
- Implementation Plan
- Training/User Manual(s)
- Application Code
- Service Level Agreement
- Disaster Recovery Toolkit
- Service Center Knowledge Documents

Project Name: OCME FCMS Enhancements Project ID: DJ0176FE

#### **Approach**

- Develop Detailed Project Plan
- Collaborate with vendor on contract and SOW
- Review current business process and conduct needs assessment with customer, ensuring current manual processes are refined and automated.
- Document system requirements
- Determine and document system architecture and diagram
- Assess User Hardware and Software Requirements
- Conduct Tech Review
- Order hardware and software if needed
- Develop Implementation Plan
- Develop new system
- Develop User Acceptance Test Plan
- Test new system
- Acquire User Acceptance Sign off
- Conduct Change Control
- Develop User Documentation, SLA, Disaster Recovery Toolkit, Service Center Knowledge Documents
- Train users on new system
- Release new system into production

## **Research & Analysis**

Gartner Research Recommendation Research not Required

## **Benefits**

See Return on Investment (ROI) Analysis Document

## <u>Impact</u>

Number of Users 32

**Divisions** Medical Examiner

Leadership Groups Courts

Project Name: OCME FCMS Enhancements Project ID: DJ0176FE

**Risk** 

**Business Environment** Low - Little or no impact to existing business processes.

**Technical Environment** Low – Proven or previously implemented technologies.

**Assumptions** 

**Staffing** IT Staffing: resources will be available for the hours indicated per the attached

project plan.

Other Staffing: additional staffing will be available as follows:

Role: Name Hours per Day

Project Sponsor: Casimir Miarka As needed

**Facilities** 

None

**Technical** 

None

**Funding** 

• IT

Other

None

**Priority** 

•

Project Name: OCME FCMS Enhancements Project ID: DJ0176FE

## **Constraints**

None

## **Exclusions**

• None

#### Assumptions

Date	Assumption Description
	Integration for direct download of lab results would eliminate the need for toxicologist to manually enter the information into they system.
	This will also ensure the accuracy of the data that is imported. It will average 15 minutes per case to manually enter the information. Average 1100 autopsies per year. 1100 x 15 minutes = 16500 minutes or 275 hours. Forensic Toxicologist hourly wage with benefits = \$68.88 x 275 hours = \$18,944
10-Feb-20	\$00.00 X 273 Hours = \$10,944
	Currently the system requires the person viewing photos to download them before they can view them into a gallery. If the system allowed for viewing photos in a gallery the individual can save time by not having to download the photos. $(1100 \text{ cases x } 10 \text{ minutes})/60 = 183 \text{ hours}$ . Doctors avg hourly rate is $140.80 = \$25,620$
	Need ability to track cases for required monthly meetings. Adding this criteria to the search will allow the cases to be readily pulled from a report rather than manually searching for a case. Currently takes about 30 minutes to prepare report adding the special fields will reduce this to 5 minutes per month. 5 hours saved x \$41.64 for MEO Assistant = \$208.00
18-Jun-20	All requirements have been properly captured and provided to the vendor for the cost estimate.
18-Jun-20	Vendor professional services costs will not increase in 2021
08-Jul-20	Cost of AWS S3 environment for FCMS backup of closed files as staging for Laserfiche is \$25/mo. x 12 month = \$300 (yr. 1)
