Project Goal

To establish a Citizen Engagement budget for the Finance and Admin Leadership Group so that hours may be allocated in support of the development and expansion of Oakland County's digital media goals and objectives.

Business Objective

To provide a shared citizen engagement budget for digital media Initiatives in support of users, departments, agencies, and eGovernment goals and objectives.

Major Deliverables
- Web Content
  - Posting content
  - Content Training
  - Graphics
  - Citizen
- Citizen Engagement
  - Writing for the web
  - Email Marketing
  - Blogs
  - Video
  - Social Media

Approach

- As a request for citizen engagement digital media channel is approved, the quantities available for each digital asset will be decremented and the work will be scheduled to complete the request

Project Name: Citizen Engagement Budget – Finance LG   **Project ID: DE9182CF**

- The approach for blog, email marketing and video requests will be the same for each leadership group.
- The approach will vary for social media.

Research & Analysis

Gartner Research Recommendation   Research Conducted – See recommendation below

Citizens' experience with government services is often "underwhelming," leaving them lacking confidence and trust. Government CIOs leading digital transformation need to establish a citizen experience program with an outside-in approach that meets citizen expectations of digital government services.

Key Findings:

- Government leaders have regularly stated goals of being more citizen-centric or improving the citizen experience. However, unless they're turned into action-oriented strategies, tracked and measured, these goals will not be achieved, which will lead to lower levels of transparency and accountability.

- CX efforts that do not show quantifiable value lose executive support, and often see their funding cut when budgets are tightened.

- Citizen engagement efforts, which are often siloed, frequently fail to produce satisfactory interactions with citizens, leading to a sense of citizen apathy and frustration by government leaders.

Government CIOs leading their organizations in digital transformation should:

- Put citizens at the center of service delivery by following this roadmap to incorporate CX strategies into their digital government strategies.

- Use customer journey maps to identify and prioritize new opportunities for digital services and enterprise wide investments to accelerate their organizations' progress toward implementing digital government.

- Develop CX-focused, digital government key performance indicators across government services that measure digital service effectiveness and drive digital transformation to demonstrate the business value of citizen-centric digital government.
