#### **Project Goal**

To obtain a new system for Land Records and Super Index to begin 1/1/2021, so that the system aligns more closely with business needs and continues to evolve with the latest infrastructure, security, and technology needs.

#### **Business Objective**

Support contract negotiations for the selected Land Records and Super Index System as well as select a certified vendor to assist with the implementation of the new system for impacted department.

#### **Major Deliverables**

- Signed contract and Scope of Work (SOW)
- Develop a vendor implementation RFP Document
- Vendor Contact List
- Vendor Selection Criteria Matrix Vendor Selection Decision

#### **Approach**

- Work with customer and Corp Counsel on contract and SOW
- Create Work Breakdown Structure in Clarity for project
- Define and document solution requirements
- Develop the RFP Document
- Develop prospective vendor contact list
- Meet with stakeholders to determine selected vendor

Project Name: Land Records and Super Index Replacement Project ID: D99214RD

## Research & Analysis

Gartner Research Recommendation - Research conducted; nothing found.

### **Benefits**

See Return on Investment (ROI) Analysis Document

#### **Impact**

#### **Number of Users**

100+

#### **Divisions**

- · Register of Deeds
- Treasurer
- Equalization
- Local CVT's

#### **Leadership Groups**

Land

**Business Environment** Medium - Project will require some changes to existing business processes.

**Technical Environment** Low - Proven and previously implemented technologies.
