Project Goal

To create and implement a CLEMIS roadmap so that CLEMIS is meeting the changing needs of the OCSO and CLEMIS member agencies.

Business Objective

This will provide CLEMIS agencies a comprehensive case management system that is device agnostic, reliable and an efficient reporting tool so that they will be able to improve planning and responses to better serve the public safety needs.

Major Deliverables

- Roadmap
- Detailed Project Plan with WBS
- Business Requirements Documents
- Proof of Concept
- Functional testing
- Implementation Plan
- Training/User Manual
- Service Level Agreement
- Disaster Recovery Toolkit
- Service Center Knowledge Documents
- Rewrite Application

Approach

- Develop Detailed Project Plan
- Document system requirements
- Create Proof of Concept
- Assess User Hardware and Software Requirements
- Conduct Tech Review
- Develop Implementation Plan

Project Name: CLEMIS Platform Rewrite Program Project ID: DF3183CR

- Develop new system
- Develop User Acceptance Test Plan
- Test new system
- Acquire User Acceptance Sign off
- Conduct Change Control
- Develop User Documentation, SLA, Disaster Recovery Toolkit, Service Center Knowledge Documents
- Train users on new system
- Release new system into production

Business Objective

Improve user productivity and efficiency of CLEMIS members by implementing an application that can be delivered over the internet allowing the use of mobile devices and tablets so that CLEMIS technology can evolve and stay relevant, such as to have all mapping access go out directly via the internet.

Major Deliverables

- Detailed Project Plan with WBS
- Business Requirements Documents
- Functional testing
- Implementation Plan
- Training/User Manual
- Service Level Agreement
- Disaster Recovery Toolkit
- Service Center Knowledge Documents
- Rewrite Application

Approach

- Develop Detailed Project Plan
- Document system requirements
- Assess User Hardware and Software Requirements
- Conduct Tech Review
- Develop Implementation Plan
- Develop new system
- Develop User Acceptance Test Plan
- Test new system
- Acquire User Acceptance Sign off
- Conduct Change Control
- Develop User Documentation, SLA, Disaster Recovery Toolkit, Service Center Knowledge Documents
- Train users on new system
- Release new system into production

Project Name: CLEMIS Platform Rewrite Program Project ID: DF3183CR

Research & Analysis

Gartner Research Recommendation

Nothing found

Benefits

See Return on Investment (ROI) Analysis Document

Impact

Number of Users 5000+ users

Divisions CLEMIS

Leadership Groups CLEMIS

Risk

Business Environment Medium - Project will require some changes to existing business

processes.

Technical Environment Medium - Previously implemented technologies with new aspects

and/or new requirements.

Assumptions

Staffing IT Staffing: resources will be available for the hours indicated per the attached

project plan.

Other Staffing: additional staffing will be available as follows:

Role: Name Hours per Day

Project Sponsor: Jim Manning As Needed

Facilities

•

•

Project Name: CLEMIS Platform Rewrite Program Project ID: DF3183CR

Technical

- This project will be developed in phased approaches.
- The integrations to the following applications to be included in the re-write: CRASH, CLEAR, Citations, Evidence & Property, Activity Log, Online Citizen Reporting (OCPRS), CLEMIS Search, OakVideo, CFIRS, CAD MDC, and Auto Impound.
- No changes to underlying infrastructure.

Funding

CLEMIS Fund

Other

- This will span across multiple master plans.
- Coordination with the developers of the CAD system to ensure seamless integration between the systems

Priority

TBD

Constraints

•

•

Exclusions

- Upgrades to the Data Base are not included in the estimation of this project.
- •

Project Name: CLEMIS Platform Rewrite Program Project ID: DF3183CR
