	Customer Name: Information Technology
	IT Team No: 1 Services and

#### **Project Goal**

To continue the improvement, strategic execution and delivery of IT, through the Enterprise Architecture Program for Oakland County so that county can achieve greater productivity through increased efficiency and effectiveness.

#### **Business Objective**

Driving toward a future based in trust with reduced costs, reduced risk and improved business partner enablement.

#### **Major Deliverables**

- 1. Create Strategy Documents & Drive Process Improvements.
- Create Technology Roadmap with a focus on a 3-year Vision & Research Documents. (CTO)
- 3. Tech Debt Check DB Version (consolidate into a single system of record for applications (vision is to replace Application Catalog)).
- 4. Tech Debt Check Enhancements (e.g. identify internet accessible applications, applications that completed a third-party assessment, last vulnerability scan date, last pen test date).
- 5. Create bi-annual application and technology Tech Debt Check assessment.
- 6. Licensing Optimization, Questions & Answers (e.g. strategic solution to optimize the usage and spend of assets).
- 7. Enterprise Tool Capability Model, to determine an optimized list of monitoring tools for OC. (CTO)
- 8. Performance Benchmarking to determine a baseline of an application's performance.
- 9. Open Source Strategy/Standards to identify/create strategy to maintain open source approved licenses within OCT IT.
- 10. Cloud Innovation to research and evaluate new Cloud technology available, enhancing the OC Cloud environments.
- 11. Enterprise Monitoring to reduce and consolidate number of monitoring tools for OC.

Project Name: Enterprise Architecture Program Project ID: TT2186EA

- 12. Data Center Standards to define Data Center standards for Oakland County based on Power, stack, temperature, and air flow.
- 13. API (application programming interface) Engine, to evaluate available solution to generate APIs.
- 14. Network performance benchmarking to determine a network baseline of application's performance under a defined load.
- 15. EA Program Tracking and Controlling
- 16. MSU Projects (CTO)
- 17. Supplier/Vendor Reliability Program to improve the relationships with IT's key suppliers, create a reporting mechanism and process for semi-annual reviews, identify where objective measures and feedback can be productively shared.

#### **Approach**

- 1. Work with stakeholders to create business cases for improvements within their organization.
- 2. Assist stakeholders in creating project plans and relevant documents to be used in support of the agreed upon improvements project documentation.
- 3. Involvement in RFP/RFI efforts.
- 4. Continue to refine the Oakland County IT Technology Standards.
- 5. Review Architectural Principles, Controls and Guidelines to ensure IT activities align to Enterprise Architecture strategies.
- 6. Perform annual application and technology Tech Debt Check assessment.
- 7. Bring new building blocks to Oakland County to improve business and IT.
- 8. Maintain the Governance process for project engagement and standards alignment.
- 9. Deliver architectural recommendations for projects needing direction.
- 10. Create technology roadmaps for a three-year vision.
- 11. Build meaningful vendor relationships with active Road Mapping sessions.
- 12. Challenge decisions that do not:
  - 12.1. Standardize
  - 12.2. Integrate
  - 12.3. Mindset (align to our principles and standards)
  - 12.4. Process (align to our governance)
  - 12.5. Leverage investments
  - 12.6. Engagement (ensure Architectural Engagement in decisions)
- 13. Conduct proactive and retrospective technology investigations that serve as a springboard for innovation and environmental hardening.

Project Name: Enterprise Architecture Program Project ID: TT2186EA

#### Research & Analysis

Gartner Research Recommendation: N/A

#### **Benefits**

See Return on Investment (ROI) Analysis Document

#### **Impact**

**Number of Users** All of IT directly; indirectly all of Oakland County users and CVTs

**Divisions** Information Technology

**Leadership Groups** IT Steering Committee

#### Risk

**Business Environment** Medium – Project will require some changes to existing business

**Technical Environment** Medium – Project will require some changes to existing

technologies

#### **Assumptions**

**Staffing** IT Staffing: resources will be available for the hours indicated per the attached

project plan.

Other Staffing: additional staffing will be available as follows:

Role:	<u>Name</u>	<b>Hours per Day</b>
Project Sponsor	EJ Widun	As Needed
СТО	EJ Widun	As Needed
CISO	TJ Fields	As Needed
IT Director	Mike Timm	As Needed
Application Services Manager	Tammi Shepherd	As Needed
Internal Services Manager	Janette McKenna	As Needed
CLEMIS Manager	Jeff Nesmith	As Needed
