Subject: Finance/Admin Leadership Group eVote request for the Homeland Security Inventory

Management System Project - ACTION REQUIRED

Importance: High

As noted at the October Finance/Admin Leadership Group, this is the official eVote request for the sizing and prioritization of the Homeland Security Inventory Management System project. Homeland Security is requesting an eVote approval to move forward with the HSD Inventory Management Implementation at 291 hours. The hours for the project will be ARP (federal) funded. The HSD Inventory Management Implementation project was previously prioritized at number 9.

As a reminder, unlike a formal meeting in person or virtual meeting where only a quorum is needed, eVotes require all voting member department representatives to respond in order to move forward. Please respond to the two questions below.

Lynn's response is YES for both Q1 and Q2.

Q1: YES or NO

Does the Finance/Admin Leadership Group authorize an electronic vote on this request?

Q2: YES or NO

Do you approve the addition of the HSD Inventory Management Implementation Project to the 2021-2022 Master Plan with a priority of 9?
